Basic Information:

- **Accessing the Library Homepage:**
  
  Start at the TUN homepage:  [www.tun.touro.edu](http://www.tun.touro.edu)
  
  - Under the Faculty/Staff drop down menu, choose Jay Sexter Library.
  
  - OR
    
  - Scroll to the bottom of the screen and click on Library.
    
    ➢ Add our homepage to your web browser Favorites for faster access.

- **Use the Remote Access Registration link to register for remote (off-campus) access to our resources.**
  
  - Click the Remote Access Registration Instructions link under Library Quick Links for detailed instructions.
  
  - Use your 14-digit library barcode number (check your ID badge or Library User Agreement) to register.
  
  - Do not share your login or password with anyone!

- **Use the Library Catalog to find print books, ebooks, print journals, CDs, and DVDs by keyword, author, title, or subject.**
  
  - Use Library Databases to find descriptions of and links to the library’s online databases.
    
    - Search by Database Name, Subject, Program, or all of these options (All) by using the drop down menu choices.
    
    - Use the Select Program drop down menu to quickly view recommended resources for TUN programs.
      
      - Select Adjunct Faculty from the menu to view resources available to TUN adjuncts.
      
      - Combine the Adjunct Faculty program with a Subject search (for example: clinical medicine) to find more specific databases.

    - TUN Databases ( ) require a login and password off-campus. Free Databases (free) are free to all.

- **Use Journals to see if the library has a subscription to a particular journal in electronic or print format and access electronic journal content.**

- **Use Subject Guides to find lists of subject-specific databases, books, ebooks, websites, test preparation materials, and writing resources.**
  
  - Click on Clinical Medicine from the list of programs or visit [http://libguides.tun.touro.edu/clinicalmedicine](http://libguides.tun.touro.edu/clinicalmedicine) to view our clinical resources.
  
  - Please note: due to licensing constraints, UpToDate Anywhere is not available to residents.

- **Use the online Interlibrary Loan Request form to request articles or books not listed in Journals or the Library Catalog. Please fill out all of the boxes, and include the article’s PMID (PubMed ID number) if it has one.**

Library Quick Links:

- **Use PubMed @ TUN to search for articles in biomedical journals and find full text documents when available.**
  
  - After searching, change the display settings to Abstract to reveal [Full Text TOURO NV](http://www.tun.touro.edu) icons – clicking these icons will lead you to full text documents.
  
  - Copy and paste an article’s PMID number into the Search by PMID box on the Journals page if there is no blue icon. You will either be directed to a site where full text is available, or you will see a “Sorry, this item is not available online” message. Submit an Interlibrary Loan Request if full text is not available.
Selected Resources (from the Library Databases page):

- **AccessMedicine** – A McGraw-Hill database with numerous medical texts, practice cases, images, videos, practice board review questions, and much more.

- **ClinicalKey** – Elsevier’s current medical and surgical content including First Consult, top journals, best-selling medical and surgical books, and thousands of medical videos, millions of images, and much more across 12 distinct content types. This database replaces MD Consult & First Consult.

- **Cochrane Library** – A database of systematic reviews and protocols prepared by Cochrane Review Groups in the Cochrane Collaboration. It contains over 5,000 Cochrane systematic reviews and over 650,000 other data records, covering clinical trials, methods, technology and economic evaluations.

- **Isabel** – A diagnosis checklist tool to help clinicians broaden their differential diagnosis to better recognize diseases at the point-of-care. Includes information from BMJ Best Practice.

- **JAMA Network Journals** – Search for full text articles in journals published by the American Medical Association (AMA), including JAMA going back to 1998, and the JAMA specialty journals (formerly the Archives journals) going back to volume 1.

- **Lexicomp Online** – A comprehensive drug information database that provides access to current drug and disease information. Features include drug identification, drug dosing calculation, AHFS content, patient education materials, and more.

- **PsychiatryOnline** – Includes a number of American Psychiatric Publishing books and journals, including the American Journal of Psychiatry and the current edition of the DSM.

- **PubMed @ TUN** – Use the PubMed interface to search for biomedical citations and then link to the full text of almost all of the journal articles subscribed to by the Jay Sexter Library at TUN.

- **ScienceDirect** – Search for articles in over 2,500 peer-reviewed journals and more than 11,000 books published by Elsevier. Includes full text of more than 900 basic science and clinical science journals with content back to 1995.

- **Scopus** – A citation database that allows you to identify the most influential articles on a topic and find newer articles that cite older articles. The database includes citations from 1996 to present.

- **SPORTDiscus with Full Text** – The world’s most comprehensive source of full text for sports and sports medicine journals. Use this database to search over 650,000 citations and abstracts of articles, books, and conference proceedings on sports, sports medicine, and fitness.

**Library Contacts:**

7:30 am - 5:30 pm Monday-Thursday; 7:30 am - 4:00 pm Friday
