Library Resources

- **Finding Articles and More**
  - Use **Library Databases** to find descriptions of and links to the library’s online databases containing article citations, full-text articles, ebooks, images, videos, question banks, and more.
    - Search by Database Name, Subject, Program, or all of these options (All) by using the drop down menu choices.
    - Use the **Select Program** drop down menu and choose “Nursing” to see recommended resources.
    - Click on the link to a database to begin your search.
    - **TUN Databases** require a login and password off-campus. **Free Databases** are free to all.
- **Finding Books**: Use the **Library Catalog** to find print books, ebooks, print journals, anatomical models, flash cards, CDs, and DVDs by keyword, author, title, or subject.
- **Finding Journals**: Use **Journals** to see if the library has a subscription to a specific journal in electronic or print format and access electronic journal content. [NOTE: Use a Library Database to search for articles by subject.]
- **Interlibrary Loan**: Use the online **Interlibrary Loan Request** form to request articles or books not available in the library. Check **Journals** (for article availability) or the **Library Catalog** (for book availability) before making an ILL request. Fill out all of the boxes, and include the article’s PMID (PubMed ID number) if it has one.

Library Guides

- Use the **Nursing Subject Guide** to find databases, books, ebooks, test preparation materials, and writing resources that are helpful to Nursing students. **Library Resources** in your Blackboard courses links to it, or find it under **Subject Guides** on the left-hand panel of the library website.
- **Online Library Orientation**: An online library orientation for TUN students is available on **Blackboard** under **TUN-My Orgs**. Look for **TUN Library Orientation (Students)**.
Selected Nursing Resources (from the Library Databases page)

- **Bates' Visual Guide to Physical Examination** – Clinical skills videos featuring head-to-toe and systems-based physical examination techniques, as well as OSCE clinical reasoning models.

- **CINAHL Plus with Full Text** – CINAHL is the most comprehensive resource for nursing and allied health literature. CINAHL Plus with Full Text indexes over 4,600 journals with full text for more than 770, some back to 1937. This resource indexes books, dissertations, conference proceedings, standards of practice, educational software, audiovisuals, evidence-based care sheets, and more.

- **Health Source: Nursing/Academic Edition** – Indexes over 800 mostly peer-reviewed periodicals (with full text for over 500) related to medical disciplines, particularly nursing, and allied health. Coverage for many periodicals goes back to 1975.

- **Isabel** – A diagnosis checklist tool to help clinicians broaden their differential diagnosis to better recognize diseases at the point-of-care. Includes information from BMJ Best Practice.

- **Lexicomp Online** – A comprehensive drug information database that provides access to current drug and disease information. Features include drug identification, drug dosing calculation, AHFS content, patient education materials, and more.

- **Nursing & Allied Health Database (ProQuest)** – Search for articles in over 1,050 journals, over 875 in full text, as well as more than 12,300 full text dissertations on alternative and complementary medicine, consumer health, cytology, nursing, nutrition, oncology, pediatric care, pharmacology, public health, radiology, and more.

- **Nursing@Ovid** – Search the full text of 16 nursing journals as well as the nursing subset of Medline through the Ovid interface.

- **Ovid eBooks & eJournals** – Search the full text of more than 30 ebooks and 20 ejournals in medicine and nursing. Includes ebooks from the American Nurses Association (ANA) and Lippincott Williams & Wilkins.

- **PubMed @ TUN** – Use the PubMed interface to search for biomedical articles and link directly to the full text of almost all of the journal articles subscribed to by the Jay Sexter Library.

- **Quertle Qinsight** – Search the biomedical literature, including article citations from PubMed and PubMed Central, NIH grants, patents, and patent applications, using sophisticated linguistic analysis technology.

- **SAGE Premier** – Search for articles in over 600 full text journals with content back to 1999. Covers business, health science, humanities, social sciences, science, and technology.

- **ScienceDirect** – Search for articles in over 2,500 peer-reviewed journals and more than 11,000 books published by Elsevier. Includes full text of more than 900 basic science and clinical science journals with content back to 1995.

- **Scopus** – A citation database that allows you to identify the most influential articles on a topic and find newer articles that cite older articles. The database includes citations from 1996 to present, as well as citations to scientific web pages, patent records, and conference proceedings.
